- 

### **PROFESSIONAL EXPERIENCE**

#### **Regional Data & Planning Analyst**

**Georgetown University – East Africa Programs** | Apr 2025 – Present

- Support planning and performance analysis for multi-country development programs with budgets, projections, and outcome tracking.
  - Develop financial and operational dashboards used for strategic planning and resource allocation.
  - Work with technical, finance, and operations teams to validate cost assumptions and forecast needs.
  - Produce analytical briefs that inform program expansion and long-term planning decisions.
- 

#### **Statistician & Program Performance Analyst**

**Kenya Medical Research Institute (KEMRI)** | Apr 2023 – Mar 2025

- Conducted performance and cost trend analysis across government-funded programs.
- Built Excel- and Power BI-based financial tracking tools to monitor expenditures vs budgets.
- Supported reporting for funders and stakeholders with financial and operational summaries.

- Contributed to forecasting exercises for multi-year program planning.
- 

### **County Data & Planning Analyst**

**County Government of Homa Bay** | May 2022 – Oct 2023

- Supported county development planning through economic and infrastructure data analysis.
  - Developed dashboards tracking sector performance, including infrastructure and service delivery indicators.
  - Assisted in preparing planning reports used for budgeting and development prioritization.
- 

### **Senior Research Data Manager – Regional Programs**

**JOOUST & VLIR-UOS** | Nov 2021 – Apr 2022

- Consolidated multi-country data to support regional development planning and reporting.
  - Designed structured reporting tools for performance tracking across education and infrastructure initiatives.
  - Coordinated with cross-functional teams to standardize metrics and improve reporting efficiency.
- 

### **Data Analyst – Development Programs**

**LERIS Hub, Kenya** | Sep 2017 – May 2021

- Supported donor-funded development projects through KPI tracking and performance dashboards.
  - Assisted in cost analysis and reporting for community and infrastructure-focused initiatives.
  - Produced visual reports and summaries for stakeholders and funding partners.
-
